OFFICE

The best furniture for the office is the one the user feels comfortable and at the same time, is productive in. The right seating can make a difference in your perspective towards the training of your team and in the overall satisfaction of your office. It is not only about appearance, but you need to consider size, budget and the kind of work you do. Here we present you some alternatives to start looking for the perfect chair for your training space inside your office!

SCHOOL

The furniture in a classroom plays a fundamental role in the performance of a student. The environment can affect the way a person learns, for example, the comfortability of a chair is directly related to the concentration capacity of the user. When deciding on a specific piece of training furniture, we need to think about different aspects like adaptability, comfort and durability. Here are some options to help you think about your own training space in schools:
